İYON HEALTH MEDICAL

İyon is a subsidiary within the esteemed Alyors Holding, standing as one of the distinguished companies under the group's umbrella.

iyon

 alyors

ALYORS HOLDING

Alyors' long journey since 2004 began with the shared vision and over 30 years of collective experience of a pharmacist, a doctor, and an engineer, all dedicated to enhancing human health with innovative products made from natural ingredients.

Today, Alyors has become a household name, with 750 products under 10 brands and 9 companies that cater to diverse health and wellness needs, including food supplements, dermo-cosmetics, and medical devices. Our products touch the lives of millions of people in over 50 countries.

Experience the Alyors difference: 'Care More, Inspire More, Innovate More'

AT A GLANCE: ALYORS GROUP COMPANY

 Founded in 2004	 10 Brands	 Sector Leader in Domestic Market
 Manufacturing Plant with 145.000 sq. ft. area	 9 Companies	 53 Countries
 1250+ Employees	 750+ Products	 +4 Billion Consumers

iyon Health Medical

It was established in 2008 by pharmacists with 30 years of professional experience. As a pioneering force in the Turkish medical device sector, our commitment to addressing the evolving needs of the industry has been central to our success .

As a leading innovator, İyon Health Medical has made significant strides in the market, becoming the first producer of 'pen needles' and 'sea water' in Türkiye. These groundbreaking products have been recognized with the Project success Appreciation award from TUBITAK (the Scientific and Technological Research Council of Türkiye), underscoring our dedication to research and development.

İyon Health Medical has significantly expanded its product portfolio to include four main categories: medical devices, cosmetics, biocides, and others, encompassing 28 different brands.

Our commitment to quality is demonstrated through strict adherence to ISO and CE standards. Each product undergoes comprehensive quality control measures in accordance with ISO 13485, ISO 9001, and ISO 22716 standards before being released to the market.

How did we achieve success ?

iyon Health Medical, which prioritizes health, achieves its goals through a success strategy that it has crafted as a company offering health initiatives, innovative ideas, and enhanced existing concepts.

Innovative Ideas: We observe, produce, and develop in a world that is constantly evolving and changing.

Expertise: We continually strengthen our team by hiring experts who are innovative and experienced.

Right Business Model: We maintain our status as a company that is always current through high-level planning.

Planned Work: We carefully plan the ideas we develop and implement these plans in a disciplined manner.

NASAL ASPIRATOR & TIPS

NASAL ASPIRATOR

iyon

Nasal Aspirator is specifically designed to help cleanse the baby's nose safely, effectively, and gently with its extra-soft tips.

Recommended Use:

Nasal Aspirator is recommended for newborns, infants, and children who cannot blow their noses themselves.

Iyon Nasal Aspirator can be used as needed, especially before eating or sleeping.

Composition:

Nasal Aspirator consists of a **nasal aspirator body** (polypropylene), **five soft disposable tips** with sponge filters (polyvinyl chloride), a flexible tube, and a mouthpiece.

Benefits:

- Helps relieve baby's nasal congestion, allowing them to breathe, sleep, and feed more comfortably.
- Prevents complications such as ear infections (otitis), sinus infections (sinusitis), and cough.
- It does not contain any preservatives.

alyors

NASAL ASPIRATOR TIPS

Nasal Aspirator Tips are used to cleanse a baby's nose safely, effectively, and gently with their extra-soft tips.

Nasal Aspirator Tips fit perfectly into your baby's nose with their soft tips, designed to suit the anatomical structure.

Recommended Use:

Nasal Aspirator is recommended for newborns, infants, and children who cannot blow their noses themselves.

iyon Nasal Aspirator can be used as needed, esp. before eating or sleeping.

Composition:

Nasal Aspirator Tips contain **10 disposable, soft tips made of PVC (polyvinyl chloride) with sponge filters.**

Benefits:

- Helps relieve baby's nasal congestion, allowing them to breathe, sleep, and feed more comfortably.
- Prevent complications such as ear infections (otitis), sinus infections (sinusitis), and cough.
- Each replacement tip is individually packaged, and features a mucus-absorbing filter to ensure perfect hygiene.

NEBULIZER

 alyors

NEBULIZER

Description:

A nebulizer with a compressor is a device that converts liquid medicines into vapor, allowing them to be inhaled.

The nebulizer enables the effective administration of asthma medications in young children, patients who cannot adapt to metered-dose inhalers, and patients with severe asthma.

Special medicines prepared for use with a nebulizer are called NEBUL.

The Smart Neb Compressor Nebulizer is used for the treatment of asthma, chronic lung diseases (COPD), cystic fibrosis, bronchial asthma, acute and chronic bronchitis, and pneumonia.

ANTI-LICE SPRAY

 alyors

ANTI-LICE SPRAY

Anti-Lice Spray is a medical device indicated for the treatment of head lice infestations.

It is an easy way to get rid of head lice and eggs.

Recommended Use:

Anti-Lice Spray is suitable for use on adults and children over 6 months old. It is safe during pregnancy and breastfeeding.

Composition:

Anti-Lice Spray is specially formulated with %40 cyclopentasiloxane and %60 dimethicone, does not contain additives harmful to the body.

Description:

Anti-Lice Spray consists of a 100 ml hair solution spray bottle and includes a metal lice comb.

It acts by closing the respiratory tracts of lice and nits by physical mechanism of action. Since it is physical, it is not possible for lice to gain resistance.

Benefits:

- Anti Lice Spray works with a physical action that suffocates head lice, ensuring they do not develop resistance to the treatment.
- Anti-Lice Spray is free from harmful pesticides, making it safe and gentle for hair and scalp.
- It is odorless and colorless, providing a more comfortable and user-friendly lice treatment option.
- With its fast-action formula, it resolves lice infestations in just 30 minutes.
